- Enjoy a SIMPLE PRICING MODEL, adaptable for any endpoint type.
- The Intel vPro platform SAVES BUSINESSES TIME AND MONEY when managing and securing PC fleets.

A SOLUTION DELIVERING HARDENED SECURITY

- Enhances THREAT DETECTION with EDR, Managed SOC, DDoS, WAF, AV, and more.
- Automates your PATCH MANAGEMENT.
- Controls access with ENFORCED 2FA.
- Keeps systems patched, current, and FUNCTIONING OPTIMALLY 24/7 with Intel vPro.

"What I love is the level of detail that Kaseya gives us and how we can silently go into a system … we can use Intel Endpoint Management Assistant to remote into a system, turn it on, and patch it. It's really been a lifesaver with businesses that are keeping remote employees. We've used a zero trust security approach and adopting PCs with the Intel vPro platform is a big deal for us."
